PREPARING FOR RISING SEA LEVELS IN THE BAY AREA

Association of Bay Area Governments 

PREPARING FOR RISING SEA LEVELS IN THE BAY AREA

When: Wednesday April 16, 2008
Where: MetroCenter 101 Eighth Street Oakland, California
Hosted By: BCDC, ABAG, San Francisco Bay National Estuarine Research Reserve

Is Your Community Prepared to Adapt Future Sea Level Rise?

Preview of Forum Highlights:

- Presentations by Leading Climate Change Experts:
Dan Cayan, Director, Climate Research Division, Scripps Institution of Oceanography;
Leads the Governor's Climate Scenarios and Coastal Research Teams
Peter Gleick, Executive Director, Pacific Institute, Co-Author of *Assessing The Costs Of Adapting To Sea-Level Rise: A Case Study Of San Francisco Bay*
Will Travis, Executive Director of BCDC

Using an interactive format, we will:

- Learn the direct consequences of climate change driven sea level in the Bay Area—a region of great ecological and social diversity and economic importance.
- Learn how to assess your community's vulnerability to the effects of sea level rise including the potential costs of protecting against an increase in sea level.
- Hear from local governments who are confronting the challenges of sea level rise and the strategies they are pursuing.
- Learn how local governments can partner with other agencies and organizations to reduce sea level rise rates by cutting greenhouse gas emissions.
- Explore adaptation strategies for protecting property in threatened areas.

Who Should Attend: City and County Managers, Planning, Public Works and Park Agency Directors, Flood Control and Water Agency Directors, and Elected Officials

Contact: Joe LaClair
San Francisco Bay Conservation and Development Commission (BCDC)
50 California Street, Suite 2600
San Francisco, California 94111
415 352-3656/joel@bcdc.ca.gov

Cost: \$25 per person, includes continental breakfast, lunch and conference materials
